Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed adding "data is automatically extracted from the information on a disc and printed on the disc" into the claims. Examiner will review the prior art of record to determine if the prior art does it "automatically" if the claims are amended to include that term. Discussed the 35 USC 112, 1st paragraph rejection. Examiner explained that "creating multiple backup jobs until all backup data is assigned to a backup job" (claim 17) is subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, has possession of the claimed invention. Agreement was not reached. Applicant will file a response.
